KUHINJA

Opcija u kojoj zadržavamo fronte u originalnoj boji na strani kuhinje s visokim elementom. Ostatak kuhinje mijenjamo u svijetlu boju vanilije u čijoj istoj nijansi sugeriram i masku iznad gornjih kuhinjskih elemenata kako bi se sakrila cijev od nape. Predložena boja za zidove je bijela. Kuhinjsku radnu ploču mijenjamo u imitaciju kamena/keramike u beige tonu. Kako će generalno prevladavati svijetli i prozračni tonovi unutar prostorije, predlažem zamjenu barskih stolica u bijele (eventualno uz dodatak drva) koje imaju notu industrijskog stila u sebi kako bi se povezale s odabranim rasvjetnim tijelima. U kut blagovaonice smjestili smo manju drvenu vitrinu, a sugeriram i novi prošarani tepih u beige tonovima modernog dizajna. Zavjese predlažem u vidu dugih bijelih, prozračnih dekora, a iznad sudopera laganu rimsku zavjesu.

DNEVNI BORAVAK

U prvoj opciji dnevnog boravka ostavljamo postojeću TV komodu. Ona će se svojim nježnim beige nijansama povezati s novim frontama u kuhinji. Instalacijski stup oblačimo u dekorativni kamen u vidu stare opeke u svijetlim tonovima. I dalje se kompletno zadržavamo na svijetlim, prozračnim bojama uz tople beige nijanse pa tako sugeriram novu kutnu garnituru u beige boji, prošarani moderni tepih u istim nijansama koji prate komodu i sofu te bijele prozračne zavjese. Radijator kod otvorenih polica zatvaramo maskom te dobivamo veliki otvoreni kubus koji sugeriram u boji drva najsličnijeg postojećem parketu. U otvoreni kubus svakako predlažem da se držimo prvotne ideje i da pozicioniramo veliku sliku na platnu. S obzirom na industrijske detalje u vidu stropne rasvjete u dnevnom boravku i kuhinji, uz nekoliko dodataka manjeg namještaja u dnevnom boravku, zaokružiti ćemo priču, pa tako sugeriram podnu lampu s crnim detaljima te side stolić u crnoj varijanti kao i stolić za kavu. Zid na kojem je smješten ormarić s instalacijama sugeriram da se obuče u dekorativne letvice koje će se bojom povezati s postojećim parketom i otvorenim kubusom kod polica, širine kolika je dimenzija ormarića (letvice koje prelaze preko ormarića bi se trebale urezati tako da se ormarić bez obzira na njih nesmetano može koristiti u slučaju potrebe).

KUHINJA

U drugoj opciji kuhinje koju također prate svijetle i nježne krem nijanse, sugeriram bojanje postojećih fronti u čistu bijelu boju, a nove kuhinjske fronte u kashmir beige nijansi. Također, u istom tom kashmiru sugeriram i boju zidova u cijelom prostoru. S obzirom da je kashmir nijansa beige boje koja u sebi sadrži i primjesu sivih tonova, rashladit će postojeći topli parket. U vidu nove radne kuhinjske ploče predlažem ploču u imitaciji mramora. Od novog gotovo kupovnog namještaja, opcije su vrlo slične kao i u opciji kuhinje 1, nove polubarske stolice, tepih, vitrina i police za vino te prozirne bijele zavjese.

DNEVNI BORAVAK

S obzirom da smo u drugoj opciji kuhinje uveli notu modernijih linija i boja, sugeriram da istim principom uđemo i u dnevni boravak. Upravo iz tog razloga, glavna točka koju moramo izbaciti je postojeća TV komoda koja nam sada više svojim izgledom i dizajnom ne ide u korist. U prostor u ovoj opciji dnevnog boravka unosimo jednostavne monokromatske boje (bijela, siva, crna). Unošenjem crnih tonova povezujemo priču sa industrijskim rasvjetnim tijelima i uklapamo ih u priču da se prilagode u moderan, jednostavan i elegantan stil. U ovoj opciji svakako bih predložila da se postavi zidna rasvjeta na mjestima gdje su za nju predviđeni izvodi (između balkonskih prozora te TV zida), pogotovo s obzirom da je u ovoj varijanti TV zid pojednostavljen i bojan u bijelu boju. Postojeći dimnjak dekoriramo i akcentiramo zidnim teglicama sa biljem. Od gotovo kupovnog namještaja uvodimo tepih i sof u sivim nijansama, u crnim detaljima podnu lampu i side stolić i stoliće za kavu, dok bijeli boju zadržavamo kod otvorenih polica. Instalacije na zidu prema kuhinji sakrivamo neutralnom dizajnerskom tapetom.

OPCIJA 3

KUHINJA

U trećoj opciji, s obzirom na orijentaciju kuće i na puno prirodne svjetlosti i toplog parketa u žutoj nijansi, igramo se monokromatskim hladnim bojama u vidu bijele, sive i crne boje te jaku toplinu u prostorijama prigušujemo odabirom plavih nijansi.

Plava boja je boja koja također unosi prozračnost i mirnoću te osjećaj čistoće i sterilnosti. Iz tog razloga predlažemo da se stare fronte bojaju u čistu bijelu boju dok nove odabiremo u plavoj nijansi. S obzirom na odabrana rasvjetna tijela u vidu crnih industrijskih nota, ovoga puta sugeriramo jači unos kontrastnih komada namještaja u vidu rustikalnog i industrijskog dizajna pa tako u ovom rješenju osim polubarskih stolica mijenjamo i blagovaonske stolice. U ovoj verziji također sugeriram bijele prozračne zavjese, no ovoga puta predložen je tepih u sivim bojama.

DNEVNI BORAVAK

Treća opcija dnevnog boravka bojom se usko povezuje sa kuhinjom pa tako i u prostor dnevnog boravka unosimo prozračne plave tonove u vidu kutne garniture, ali i bočne stranice otvorenog kubusa kod polica. Također, u nježnim plavkastim nijansama sugeriram i tapetu, ali i tepih sa plavim šarama kako bi se uklopio i zaokružio cijelu priču. Na prozračnosti prostora svakako će dati i zavjese u bijeloj boji kao i dekorativne bijele panel letvice kojima sugeriram prekrivanje instalacija na zidu prema kuhinji. I dalje se držimo crnih tonova u vidu stolića kako bismo povezali odabrana rasvjetna tijela, ali i crne detalje u kuhinji. S obzirom da ovakav set boja prelazi u vrlo moderan i sofisticiran dizajn, sugeriram promjenu TV komode u bijelu komodu ravnih, jednostavnih i modernih linija.

RADNI KUTAK

S obzirom da se postojeći radni kutak nalazi u prostoru dnevnog boravka te je usko povezan samim njegovim dizajnom, sugeriramo novu radnu stolicu modernijeg i elegantnijeg dizajna. Ukoliko se ide sa opcijom dnevnog boravka u beige tonovima, sugestija je i da stolica bude u beige varijanti, a opet ukoliko bi se išlo na dnevni boravak u sivim ili plavičastim bojama, onda bi i radna stolica trebala biti u svijetlim sivim tonovima. Svakako sugeriramo da radni kutak upotpunite gadgetima za radni stol, a ne biste li na taj način upotpunili veliku bijelu površinu zida iznad njega.
